- (4) Where the Authority notifies a person that a license is required in terms of subsection (2), the notification must provide the terms and schedule in terms of which a licence will be issued.
- (5) Any person, who immediately before the commencement of this Act, lawfully provided any service or used the radio frequency spectrum in terms of the Telecommunications Act, Broadcasting Act or IBA Act without a licence is considered to have permission to continue to provide such a service on the

same conditions and terms, or use the frequency spectrum on the same conditions and terms without a licence until such time as the Authority has granted or refused a licence application.

- (6) Existing licences referred to in subsection (1) must be converted by the Authority in terms of this Chapter within 24 months from the commencement date of this Act or such extension period, which must not exceed an additional six months, from the expiry of the 24 month period.
