[Measures for Administration of E-mail Service on Internet](#)

▶ [Article 12-14](#)

Original Text

Article 12

No organization or individual shall have any of following activities:

1. Making use of others' computer system to send internet E-mail without any authorization; or
2. Sell, share or exchange others' E-mail address on internet obtained by means of automatically collection on line, willfully combination of letters or numerals, or send internet E-mails to the internet E-mail address obtained by above means.

Article 13

No organization or individual shall have any of following activities of sending internet E-mail or authorizing others to send Internet E-mail:

1. Intentionally suppressing or forging envelope information of Internet E-mail;
2. Without explicit agreement of the receiver of Internet E-mail, sending Internet E-mail containing the content of business advertisement thereto; or
3. Do not give clear indication of the word "advertisement" or "AD" in front of the tile of Internet E-mail when sending internet E-mail containing the content of business advertisement.

Article 14

Where a receiver of internet E-mail agrees clearly to receive the internet E-mail containing the content of business advertisement, but refuses to receive it, internet E-mail sender shall stop sending it except that there is an agreement between the both sides.

The sender for internet E-mail service shall, while sending internet E-mail containing the content of business advertisement, provide the contact information to the receiver for refusing to receive it continuously, including the internet E-mail address of the sender, and guarantee that the contact information is valid within 30 days.
